SUN SPRAY

SPF50

The new innovative face and body mist technology is more than just SPF50 protection – it's a skincare ritual for your skin. It not only shields against harmful UV radiation but also deeply hydrates and regenerates the skin.

The gentle spray of microdroplets ensures even application, while the lightweight, non-greasy formula absorbs quickly, leaving a satin-like, velvety finish. Enriched with hyaluronic acid, aloe vera extract, a vitamin complex, avocado oil, and sweet almond oil.

Fragrance composition: jasmine.
