## UPCYCLED CREW SPORTS SOCKS

85% UPCYCLED COTTON AND OTHER FIBERS

COMPOSITION:  
85 % UPCYCLED COTTON AND OTHER FIBERS  
12% POLYAMIDE | 3% ELASTAN

It has been confirmed by the **HIGG MATERIAL SUSTAINABILITY INDEX (MSI)** that upcycled yarns generously outperform virgin equivalent yarns across all sustainability metrics.

### STOPPING WASTE AT THE SOURCE!

We use textile waste as a raw material resource, diverting it from landfill and incineration. We become less dependent on virgin materials and we save water, energy, CO<sub>2</sub> emissions and toxic materials.

**UPCYCLED YARN** is free of hazardous substances. It exceeds ZDHC and REACH Compliance. These statements have been calculated through LCA work, verified by Universidad de Valencia and UNESCO.

### ENVIRONMENTAL SAVINGS AND BENEFITS IN 2018

 <b>WATER.</b> Saved over 43.4 billion litres.	 <b>TOXIC CHEMICALS.</b> Saved over 3.2 million kilos.
 <b>TEXTILE WASTE.</b> Upcycled over 2.9 million kilos.	 <b>RPET.</b> Upcycled over 4.3 million bottles.
 <b>CO<sub>2</sub> EMISSIONS.</b> Saved over 61 million kilos.	 <b>ENERGY.</b> Saved over 157 million kWh
 <b>LANDFILL:</b> Saved over 7.3 million square metres.

## METRICS THAT MATTER

We use the Life Cycle Assessment (LCA) methodology to measure the environmental footprint of all of our products from **cradle-to-grave**. For this, we observe metrics such as the carbon footprint, the water footprint, the use of chemicals and others. This assessment of the environmental impact of our products has been third-party reviewed by BCOME, AITEX, Universitat de València and UNESCO, to ensure transparency.

We share our metrics with manufacturers and brands because this is not just about reducing our impacts, this is also about creating sustainable supply chains and meeting consumer demand for true transparency in fashion.

## PREMIUM PRINTED COOLMAX SOCKS

### NON SMELLING SOCKS WITH ACTIVE ODOR CONTROL.

*Moves perspiration away from the feet with moisture wicking properties.*

● **ELASTICATED RIBBING**  
*For additional support and maximum comfort.*

● **HIGH QUALITY KNIT**  
*With a 2 year guarantee.*

● **FEATHER LIGHT**  
*The most comfortable socks on the planet.*

● **ANTIMICROBIAL / HYDROPHOBIC YARN**  
*Absorbs little fluid and dries quickly. Keeps socks smelling fresh.*

● **COMFORT SOLE**  
*Dense cushioned sole for maximum comfort and less fatigue.*

Polyester socks will make feet sweaty and smelly because they will not allow for sweat to evaporate. They can quickly cause foot odor (bromhidrosis). Coolmax socks are the preferred choice because they keep the perspiration away from the feet.

### Composition:

90% COOLMAX for comfort and breathability,  
8% polyester for strength, 2% elastane for stretch.
